Proposed language:

Deliberative Process 5

Let me know if this sounds okay to you!

Thanks,
Lisa

Hi Lisa,

Here you go

Reviewing background technical information pertaining to the oil/gas fields and proposed aquifer exemptions (AE)

Conducting site visits of facilities using underground injection that are regulated by EPA and/or the State of CA

Meeting with state and EPA representatives to discuss the specifics of the proposed AEs

Providing technical and regulatory feedback on the elements of the proposed AE packages/sites during the site visits

Subject: Site Visits for AE applications

Hi Michele and David,

I need a list of “activities” the contractor will be doing at the site visit. I need to add a new task to the WA and explain what the contractor will be doing at the sites.

Thanks,

Lisa
